Date: February 3, 2026

Mr. JAMES ALBERT G. OBISPO
Dean, Office of Student Affairs
Piccio Garden, Villamor, Pasay City

Good day,

We respectfully submit this letter to formally request the acceptance of the Office of the Student Affairs the official client for our undergraduate capstone project entitled:

“Web-Based Event Management System with Machine learning based Facial Attendance for Student Organization of the National Aviation Academy of the Philippines.”

We are undergraduate students of **Bachelor of Science in Aviation Information Technology** from **National Aviation Academy of the Philippines**, currently completing our capstone requirement for Academic Year **2025-2026**. The proposed project is purely academic in nature and is intended to design and evaluate an application that supports aircraft maintenance coordination and information management.

The proposed application aims to improve event management and attendance monitoring of student organizations through facial recognition and automated reporting.

All activities, scope, and information utilized in this study shall strictly comply with the policies, limitations, and guidance set forth by the Office of Student Affairs. The system will be developed solely for academic evaluation and documentation purposes.

Should the Office of Student Affairs consider accepting our request, we humbly seek permission to coordinate with designated personnel for requirement validation, limited consultations, and system evaluation as deemed appropriate by your office.

We would be greatly honored to have the Office of Student Affairs as our capstone client and to contribute, even in a modest academic capacity, to initiatives that support operational efficiency and system improvement.

Thank you very much for your time and kind consideration.
